Hong Kong Computer Society (HKCS)

The Hong Kong Computer Society (HKCS) is a well-established non-profit organisation that has been striving to improve and develop Hong Kong's Information and Communication Technology (ICT) industry since its founding in 1970.

HKCS is the first officially recognised professional association for the ICT industry in Hong Kong, dedicated to the promotion of the highest professional standards for the industry. Members hail from a broad spectrum of Hong Kong's ICT industry, from corporations to like-minded individuals, all coming together to raise the profile of the industry.

During its over 50 years' history, HKCS members have come to form the core of a wide and influential network throughout the whole spectrum of Hong Kong services and other industries. The Society offers a chance for Hong Kong's communities to exchange ideas and to carry out a dialogue with the Government regarding ICT and its impact to the society. Being a highly active association, HKCS is regularly organising many activities to help promote ICT in Hong Kong, including lectures, discussions, seminars, and open forums on subjects related to ICT.

HKCS FACE Club

HKCS FACE Club is the 1st ICT women's group with the passion to "Attract", "Connect" and "Engage" more women into the ICT industry to support the market need on digital transformation.

- To ATTRACT more FEMALE to choose ICT as their career;
- To CONNECT existing HKCS female members;
- To provide opportunities to our female members to ENGAGE in Hong Kong ICT and HKCS activities.

Outstanding ICT Women Awards 2020

The HKCS Outstanding ICT Women Awards aims to give honour and recognition to the achievements of female ICT leaders, and to celebrate the innovation and contribution from young females to the sector, as well as to attract more females to join the ICT industry and raise public awareness of the importance of the ICT Industry in Hong Kong.

The objectives of the Awards are:

- To recognise and encourage female role models;
- To attract more females to join ICT industry;
- To raise public awareness of the importance of ICT Industry in Hong Kong.

Congratulatory Message from President of Hong Kong Computer Society

Mr. Ted Suen

President

Hong Kong Computer Society

I want to express my heartfelt congratulations to all the winners of the "Outstanding ICT Women Awards 2020" (OICTWA 2020), organised by FACE Club of Hong Kong Computer Society (HKCS).

FACE Club was formed in 2015 by HKCS to engage and empower more women in the ICT industry. The acronym "FACE" stands for "Female", "Attract", "Connect" and "Engage". It aims to provide a knowledge exchange platform for female IT professionals and create more opportunities for them to become involved in the industry's development, thus encouraging more women to choose IT as a life-long career.

As one of the major events celebrating the 50th anniversary of HKCS this year, the OICTWA is an initiative to honour female practitioners in the ICT sector, who have made significant achievements and contributed to the industry in Hong Kong and the community at large. It has been my pleasure to witness the success of the event this year, in terms of the number of entries received and the quality of winners.

Hong Kong has positioned itself to become a financial, transportation, and innovation and technology centre in the Greater Bay Area. Many industries have been stepping up their ICT capacity to boost productivity and competitiveness, and the advent of 5G and smart living technologies are also heating up the demand for ICT talents. However, Hong Kong has always lacked an abundant pool of ICT talent, which may lead to short supply for some sectors. To meet the rising demand, HKCS places strong emphasis on talent cultivation. I hope that OICTWA 2020 can encourage more young females in Hong Kong to join this growing industry, so we can together create a better world with technology.

Here I must express my sincere gratitude to the Organising Committee for their time and effort under the excellent leadership of Mrs. Agnes Mak MH, JP, the Committee Chairperson; our Panel of Judges, chaired by Professor Nancy Ip BBS, MH, JP, our Assessors, HKCS secretariat, and all of our supporting organisations. Their contribution and collaborative efforts are very crucial to the success of the awards.

Congratulatory Message from HKCS FACE Club Chairperson

Ms. Christine Yau

Chairperson, FACE Club
Hong Kong Computer Society

On behalf of the FACE Club council as well as all our female members of HKCS, I would like to take this opportunity to congratulate all the winners of OICTWA 2020.

OICTWA was launched by FACE Club in 2015 and was the first award in Hong Kong to recognise and applaud women's contribution to innovation within the ICT industry.

OICTWA 2020 consists of three categories: "Outstanding ICT Women Professional Award", "Outstanding ICT Women Entrepreneur Award" and "Outstanding ICT Rising Star Award".

The "Outstanding ICT Women Professional Award" recognises female ICT professionals working in Hong Kong who are aged over 25. The judges assess participants based on their past ICT achievements, professional contribution to ICT industry, leadership and community contribution.

For young female ICT practitioners aged 25 or below, the "Outstanding ICT Rising Star Award" acknowledges their ICT-related achievements and innovative use of ICT, active participation in ICT industry activities, personal aspirations and community contribution.

The "Outstanding ICT Women Entrepreneur Award" is a newly introduced category this year. Winners are judged by their past ICT Achievements, personal contribution to the ICT Industry, leadership and impact to community betterment – and not just by their ability to run a successful business in Hong Kong.

While candidates of the three OICTWA 2020 awards are subject to panel assessments and interviews, the awards are not meant to be competitions. Instead, they are designed to recognise female practitioners for their contributions to the industry. And I believe all the winners this year truly deserve the honor of the award, both in their career enthusiasm in ICT, and their vision for community betterment.

Congratulatory Message from Chairperson of Organising Committee

Mrs. Agnes Mak, MH, JP

Distinguished Fellow
Hong Kong Computer Society

It is now our time to celebrate female excellence in our ICT industry. The first-ever Outstanding ICT Women Award was established in 2015 to recognise the talented female individuals in the ICT field and to promote the pervasive ICT profession to young and talented women who aspire to have a challenging, satisfactory and rewarding career. In view of the level of popularity penetration of ICT applications from various industries, a new category "Outstanding ICT Women Entrepreneur Award " is introduced to recognise lady entrepreneurs who have been innovative in using ICT to bring the success of their companies to higher level. It well deserves in adding to the two already established categories, "Outstanding ICT Women Professional Award" and "Outstanding ICT Rising Star Award".

This year we had received encouraging number of entries that reflects the creditability hard earned across the years. Congratulations to all winners and thanks to your outstanding contributions to the industry and community. The OICTWA aims to rectify the general misperception of the gender bias that men are more suitable for ICT career. In fact, it is equally suitable for both genders and you are the unsung heroes undoubtedly deserve our recognition. The Award is an effective way of empowering your engagement and inclusion in all aspects of ICT. You have earned a reputation as an esteemed thought-leader and be recognised as a role model and mentor to other aspiring female. I urge you to be the ambassador of women in ICT!

I would like to extend my heartfelt thanks to the Chairperson of the Judging Panel, Prof. Nancy Ip, members of the judging panel, members of Assessment panel and the members of Organizing Committee for their hardwork and invaluable support which makes this Award another success.

Last but not least, my greatest gratitude to all supporting organisations and generous financial support from our sponsors. Without your support, this event could not be achieved.

Congratulatory Message from Chairperson of Panel of Judge

Prof. Nancy Ip, BBS, MH, JP

Vice-President for Research and Development
The Morningside Professor of Life Science
The Hong Kong University of Science and Technology

I am honored to chair the judging panel of the Outstanding ICT Women Awards (OICTWA) 2020. The OICTWA plays a vital role in recognizing and celebrating the contributions to ICT development by women in Hong Kong. The awards also serve to remind us that the key ingredients for success are talent and perseverance, and that opportunities in the ICT sector are open and available to everyone, irrespective of gender.

This year's pool of candidates have comprised remarkable women whose dedicated efforts in ICT are driving innovation across numerous industries in Hong Kong. Our panel of judges have been significantly impressed by each of their accomplishments.

I also take this opportunity to congratulate our talented awardees. It was a difficult selection process but you are all worthy of the honor. Your creative excellence and dedication to your work are bringing forth new technologies and enhanced solutions for enterprises and communities. Your outstanding achievements serve as an inspiration to us all.

Ms. Kwok Suk Wah

Chief Information Officer and Director of Corporate Information Technology

International Finance Corporation – World Bank Group

Suk-Wah Kwok is currently CIO of International Finance Corporation which is part of the World Bank Group. Prior to this, she was Asia Pacific CIO of Lockton Companies from 2012 to 2019, and CIO of Aon Hong Kong from 2001 to 2011, and led Aon to become the first Financial Services Institution in Asia to migrate key IT services to public cloud when cloud technology was still in its infancy.

Suk-Wah is an experienced CIO well known for her courage in early adoption of leading edge technologies and her success in leading IT enabled transformations. For her long standing track record, she was awarded 2015 Top 5 CIO in China, and 2016 Hong Kong CIO of the Year (Medium Enterprise).

Suk-Wah graduated with a First Class Honors in Computer Science and hold an MBA majoring in Finance.

Thank You Note from Awardees

Winning an award is often seen as the holy grail for any profession. For me, having success as an IT professional is already the holy grail of my life. IT is not just my love and passion, I feel grateful as it also happens to be a profession that perfectly matches my ability and personality.

I thank the Hong Kong Computer Society for organizing the award and for recognizing my contribution to the industry and the community. This recognition has made me feel proud, honoured, but also humbled, as the Hong Kong IT industry has a deep diverse pool of talents and shining stars.

I dedicate this award to my late father from whom I inherited the computational and mathematical ability, but who did not have the opportunity to explore such talent due to his era and poverty. I am glad I could do so on his behalf. I also thank all my staff and the people in the industry who, over the years, have interested, inspired, and motivated me to continue to love my profession.

Personal Aspiration

My aspiration has always been to make use of technology to transform for the better and to make a difference in people's lives; and for over 3 decades of my career, the focus has been on corporate lives. I have long aspired to one day use my IT professional skills for charitable purposes, and this dream has partially come true since I joined the World Bank Group in November 2019. The World Bank Group's mission is to end extreme poverty and promote shared prosperity, and I am proud that technology can play a crucial role towards achieving such global mission.

Outstanding ICT Women Professional Award

Dr. Lam Mei Chun, Louisa

Chief Information Officer & University Librarian

Lingnan University

I am now serving as the Chief Information Officer and University Librarian at Lingnan University to provide strategic leadership to transform its IT and library services. I am very proud to be the only woman and professional in the higher education sector in Hong Kong that directs both IT and Library services. Starting from July 2020, I will be directing both JUCC and JULAC, both are consortiums of Information Technology Services Centre and Libraries of the 8 UGC-funded Universities. I would like to leverage this unique position to bring more synergy in the use of IT in the library sector.

Thank You Note from Awardees

My heartfelt thanks go to the Research Support & Digital Initiatives Team of the Chinese University of Hong Kong Library who are dedicated to work with me to develop innovative platforms to deliver unique collections and services to support e-research of the academics. I would also like to express deep gratitude to Professor Joshua Mok Ka Ho, the Vice-President of Lignan University, for fully supporting me to drive digital transformation in the University. Finally, I greatly thank Mr. John Hui, the CIO of the Education University of Hong Kong, for encouraging and nominating me to apply for this award.

Personal Aspiration

I would like to leverage fit-for-purpose digital technologies as enablers to transform and innovate the teaching and research practices not only in the University but also in the Higher Education sector. I would also like to devote more time to voluntary work especially in church services to serve the community.

Dr. Lee Woon Ming, Wendy

Regional Manager, Hong Kong & Macau
Autodesk Far East Limited

Dr Wendy Lee is the Regional Manager of Autodesk Hong Kong and Macau. With decades of business and industry experience, Wendy has made significant contributions within Hong Kong's ICT industry by using her professional role to accelerate technology adoption and increase both productivity and quality of businesses and individuals, especially in the construction and creative industry fields.

Wendy is also a past chairperson of the British Computer Society (Hong Kong Section) and current President of Hong Kong Innovative Technology Development Association. She uses her passion about promoting digital transformation and diversity by organising events and publishing articles in local media. Wendy is a published pop music composer. She also walks every weekend throughout the city, to keep abreast of the everchanging development of Hong Kong.

Thank You Note from Awardees

It is my great honour to be a recipient of this year's Outstanding ICT Women Awards. The long history and high standards of the Hong Kong Computer Society makes this award especially meaningful. I would like to express my heartfelt appreciation to President Ted Suen and everyone at the Council of HKCS along with special thanks to Organising Committee Chairlady Mrs. Agnes Mak, Chief Judge Professor Nancy Ip, my nominator Ms. Barbara Chiu and everyone who makes these awards such a success.

I'd like to thank my family, especially my parents, who always encouraged me to contribute and make a better world. I would also like to thank my colleagues and industry friends for continuously supporting my career advancement. My sincere gratitude to all of you who have helped shape me into who I am, so that I can in return be a positive influence for the next generation of talents, and be a role model to them. Thank you very much!

Personal Aspiration

Encouraging enhancement of talents is the key to the success in a modern society, and technology talents are among the most crucial to future success. To help Hong Kong maintain it's competitiveness in the global arena and remain a liveable smart city, I am devoted to talent cultivation, especially in the areas of innovative and building technologies.

Outstanding ICT Women Awards
Outstanding ICT Women Professional Award

Ms. Lui Siu Wan, Sharon

Director – IT Business Partnering
CLP Power Hong Kong Limited

Sharon Lui is a seasoned ICT professional with well-rounded IT experience and career track record in defining IT strategy and roadmap, securing operational excellence, leading large scale mission critical project implementations and transformations across Asia and US. Sharon also focuses extensively on staff development, nurturing young and diverse talent, fostering innovation, adopting modern deployment methodology like design thinking, agile and DevOps. Most importantly, Sharon is passionate on building strategic partnership with business leaders to harness benefits that are transformational and organization-wide via digital transformation, technology innovations and solutions.

Thank You Note from Awardees

I would like to express my sincere thanks for awarding me to the Outstanding ICT Women Awards 2020, Woman Professional Category. I feel truly honored and appreciate this recognition.

It is most grateful HKCS still hosted the awards even in this difficult time of the outbreak of COVID-19. I could not imagine how much efforts and time were put in organizing, scheduling, call for entries and judging.

This award is very meaningful as it not only signifies my contributions to the ICT industry, achievement in career, but the indifference between a woman and a man in ICT. Thanks again!

Personal Aspiration

With the passion of being a valued partner to enable business success through ICT. Be a professional to contribute to the growth of the ICT industry in HK. Inspire and enable others to succeed to actualise own achievement and satisfaction. Leverage this award to inspire more female to ICT industry.

貓咪與家具的一次美·好·相·遇

讓我們現在為你介紹一個全程台灣製造的品牌ANGLE WAVE（安閣家）以無毒、耐重及防潮的超級紙板製成的毛孩家具，希望能給你一個更安心的家具選擇

產品全部採用工業級瓦楞材質，既環保又耐用亦通過SGS檢測無甲醛

所有產品不需工具自行組裝

關於ANGLE WAVE品牌

是貓用品，也是居家生活的一份子

ANGLE WAVE 安閣家 將貓用品的外型加入了更多居家生活的實用考量，並以簡約、自然的風格設計帶出質感，完美融入居家生活，輕鬆打造人貓共享的質感空間！

貼心美背處理，360度防潮0死角

因應潮濕的氣候，產品背面也完整包覆，
(相比坊間塑合板家具木屑外露)，能防止水氣侵襲。

不需工具，輕鬆組裝

使用3M工業級雙面膠 & 木榫輕鬆接合，一撕、二黏、三壓，簡單三動作，男女老幼都可以輕鬆完成 ♫

安心無毒
甲醛零檢出，
達到最嚴格的
日本JIS四星標準

超強防潑水
PU防水
塗層處理

*防潑水處理僅針對貓家具系列產品

堅固耐重，胖胖貓也能玩
高強度紙板貼合結構，
提供充足的支撐力

再生環保
再生紙製作，
100%可回收

好舒壓貓屋 $320 (原價$ 355)

貓咪最愛 可躺可抓超舒壓

斜坡貓爪板 $210 (原價$ 235)

Ms. Chu Ka Yin, Norma

Founder and CEO

DayDayCook

Norma started DayDayCook in 2012 and brought it to Shanghai in 2015. Under her leadership, DayDayCook is now the largest cooking and lifestyle content platform in China with 80 million active viewers and 5 million paid customers as well as 4 experience centres nationwide. Norma has raised over US$65 million venture funding for DayDayCook from investors including Alibaba Entrepreneurs Fund and K11 Investments. Norma was featured in Apple Store's Cover Story in March 2020. She was named as China New Media Top 100 people in 2016 and as one of CY Zone's Most Notable Female Entrepreneurs in 2017-2019.

Thank You Note from Awardees

I want to express my sincere appreciation and thanks to the Hong Kong Computer Society for recognizing me with the Outstanding ICT Women Awards 2020: Women Entrepreneur Category. I am truly humbled and honored to receive it. Special thanks go to Jason Chiu for having the generosity to nominate me and the Judging Panel for taking time in acting as judges in this event. Receiving this award means a lot to me because it is very affirming and serves to make me want to keep improving oneself.

Personal Aspiration

We come from different walks of life and share the same ups and downs as we take on this roller coaster ride called entrepreneurship. Grit, positive attitude and hunger to learn are the elements that keep pushing me. Hope my story can inspire more women to strive for their dreams!

Outstanding ICT Women Entrepreneur Award

Ms. Bianca Ho

Co-founder & Chief Operating Officer

Clare.AI

Bianca Ho is the co-founder and COO of Clare.AI. Award-winning Clare.AI creates seamless conversational digital experiences through WATI.io and Clare.AI enterprise AI. We partner with enterprise clients in telecommunications and finance to automate customer support using our proprietary industry-specific, omni-channel conversational digital assistants that understands 10+ Asian languages. With our Fortune 500 clients, we automated 87% of their inquiries.

Bianca started her career in JP Morgan Private Banking, and started her career in IT working closely with Zendesk's executive team on developing their China market-entry strategy.

Thank You Note from Awardees

I wanted to express my sincere appreciation to HKCS for the honour of the Outstanding ICT Women Entrepreneur Award. I am grateful for recognizing female entrepreneurs. This award may have my name on it, but in truth it belongs to everyone who has unconditionally supported my entrepreneurship journey - my co-founder, team, clients, partners, family and friends. I faced difficult moments and significant challenges both professionally and personally, but don't forget to have fun! I am excited for what lies ahead.

Personal Aspiration

I aspire to continually learn and reinvent myself, so that I can create a world-class sustainable and scalable company. I aspire to continually create a welcoming and thriving work environment for talented individuals, particularly women to join and grow in the ICT industry.

Outstanding ICT Women Awards

Outstanding ICT Women Entrepreneur Award

Ms. Lam Yuen Lee, Viola

Founder & CEO

Find Solution Ai Limited

Established in 2016, Find Solution Ai Limited (FSAI) has innovated a patented artificial intelligence technology into personalized learning experience for K12 students in Hong Kong.

With the development of the Ai-Driven Motivation Platform – 4LittleTrees(4LTs), FSAI has rewarded a range of significant local and international awards these years, including platinum award of IFTA FinTech Achievement Award 2018, APICTA 2019 Education Award and Gold Winner of Smart Living ICT Award. We lead the education environment into a new era with a further expansion to the partnership in South East Asia.

Thank You Note from Awardees

I am truly honoured to have been awarded the Outstanding ICT Women Awards 2020 and being recognized as a female role model and leader in the ICT industry.

Female leaders are of paramount importance in the ICT industry as we are strong communicators, multi-tasking, naturally empathetic, and value relationships, these abilities are without doubt the unique strengths of women that are effective for leadership and decision making.

With the enthusiasm of pursuing the originality and dedication to self-developed technology, I believe the Ai technology will lead us to sustainable development and innovative breakthroughs in the future.

Personal Aspiration

Creativity matters. We believe in innovations and creativities. By adding innovation into the traditional education environment can bring new insights and new mindset for learners and teachers. Inspiring kids to learn better!

Congratulations

to Cyberport's community members

Ms. Choi Ching Lam

Student

Diocesan Girls' School

Choi Ching Lam is a high school programmer from Hong Kong, keenly interested in Computer Vision and Scientific Computing. She is an open source enthusiast with a deep appreciation for Python and Julia. Presently an intern at NVIDIA's AI Tech Center, Ching Lam aspires to become a Machine Learning researcher.

Thank You Note from Awardees

I would like to sincerely thank the Hong Kong Computer Society for this tremendous honour. As an apprentice in ICT and Computer Science, I am greatly indebted to my incredible mentors — Professor Li, Dr CC. Cheung and Dr C. Cheung — who have granted me learning opportunities; dedicated time and effort to nurture my interests. I am also grateful for my education at the Diocesan Girls' School, which introduced me to programming and piqued my interest in ICT. With this honour, I am encouraged to persevere in my CS endeavors, and to serve as an ambassador to further computer literacy in HK.

Personal Aspiration

In secondary-school, I aim to publish a Computer Vision conference paper under guidance. Afterwards, I aim to pursue my Bachelors, Masters and PhD in Computer Science, with a focus in Computer Vision, then devote myself to academic research. I also aspire to enhance teenage AI-literacy through founding a non-profit.

Outstanding ICT Women awards
Outstanding ICT Rising Star Award

Ms. To Pui Kiu, Cheryl

Student

City University of Hong Kong

I am a Year 2 student from City University of Hong Kong that major in Computer Science. I have been an intern in HKT last summer that participated in websites programming and development for three months. Apart from that, I have volunteered in webpage design for the NGO "Regeneration society" for around one year. I am a person that cares for details and an active volunteer that always want to make a different in the society.

Thank You Note from Awardees

I want to give my thanks to the judges and the Hong Kong Computer Society for giving me this Outstanding ICT Women Award --- Rising Star, I am really honoured and truly delighted to receive it. This award gives affirmation to my achievements and encourages me to keep pursuing my aspiration and to work for this ICT industry as my life goal. Once again, thank you for giving me this award.

Personal Aspiration

My aspiration is to become an expert in this IT field, specifically in webpage programming and development. In the future, I would like to bring different in this society by developing new form of technology, making our society more digital and improving the life standard of the public.

Congratulations to all the awardees of the HKCS Outstanding ICT Women Awards 2020
